Summary

Passionate Python Developer with hands-on experience in web development, REST APIs, and database management. Strong foundation in backend development using Django and Django REST Framework. Dedicated to building practical solutions and continuously improving problem-solving skills.

Education

Shyamlal college DU

BSC (CS) 7.6cgpa
Aug, 2021 - Jul, 2024

KV Pragati Vihar 12th 90%

KV Pragati Vihar -10th 89%

Technical Skills

Languages : Python, C++, HTML5, CSS3, JavaScript,

Frameworks: Django, Django REST Framework,

Databases: SQL, PostgreSQL,

Tools: Git, GitHub, SQLite,

Other Skills: Bootstrap, UI Design, Problem-solving, Creativity

Soft Skills

Communication, Time Management, Critical Thinking, Writing and Documentation

Languages

English, Hindi

Projects

Job Tracker

[GitHub Repo](#) | [Live Site](#)

Tech Stack : Django, Django REST Framework, HTML, CSS, JavaScript, PostgreSQL

Developed a full-stack Job Tracker application for managing job applications, statuses, and reflections.

- Implemented user authentication (registration, login, logout) and CRUD operations for job entries.
- Added a feature for users to upload and manage multiple resume templates targeting different job roles.
- Integrated a "Post-Application Reflection" feature to help users document learnings and improve future performance.
- Optimized database queries using Django ORM and configured PostgreSQL for scalable, production-grade deployment.
- Deployed the application using Render, ensuring high availability and version control through GitHub.
